

CAPABILITY STATEMENT

Company overview

Dynamic Security Solutions, LLC is a Service-Disabled Veteran-Owned small business established in May 2022, with over 13 years of expertise in the electronic security industry. We specialize in providing cutting-edge security solutions to the commercial, industrial, and governmental sectors. Our commitment to quality, professionalism, and integrity ensures that we deliver high-standard security systems designed to meet the unique needs of each client.

Core competencies

Physical Access Control Systems (PACS):

- Design, installation, and maintenance of electronic locking systems, turnstiles, vehicle gates, and proximity card readers.

Surveillance Systems (CCTV):

- Customizable solutions for surveillance camera systems, ensuring comprehensive monitoring for commercial and industrial facilities.

Intrusion Detection Systems (IDS):

- Tailored intrusion detection solutions to protect critical infrastructure.

Intercom & Entry Systems:

- Integration and installation of entry communication systems to enhance security protocols.

Differentiators

- Service-Disabled Veteran-Owned and operated, with over a decade of experience in electronic security solutions.
- Comprehensive licensing and certifications across multiple states, allowing us to meet diverse project requirements.
- Proven track record of delivering high-quality security installations for high-profile clients in the governmental and industrial sectors.
- Expertise in both the design and installation of complex security systems tailored to the client's specific needs.

Past performance

Lockheed Martin MFC:

- Installed proximity card reader access control systems on man doors, overhead doors, and vehicle gates, enhancing security for critical operations.

Steel Forgings (Shreveport, LA):

- Implemented comprehensive electronic access control systems, including electronic locking equipment on multiple doors and gates, ensuring secure entry and exit points for the plant.
